WE'VE GOT YOU COVERED!

Daisy's WinterKleen™ Leaf and Debris Cover for all pool types.

WINTERKLEEN LEAF COVER

IDEAL FOR: Pools with high debris

Mesh cover saves cleaning time | Great for windy or leafy areas | 8 Year pro rata warranty

BENEFITS OF A WINTERKLEEN LEAF COVER

SAVE on cleaning.
Keep out dirt and leaves.

SAVE on time.

SAVE on evaporation.
Reduces evaporation by 80%.

Australian Made.

WINTERKLEEN COVERS ARE MADE OF A FINE POLYPROPYLENE MESH THAT IS SPECIALLY DESIGNED AND TESTED TO NOT ONLY SURVIVE THE AUSSIE ELEMENTS BUT ALSO LIGHTWEIGHT ENOUGH FOR EASY HANDLING.

WinterKleen covers work well when installed over your pool to protect it during longer periods when the pool isn't being used as much. In the winter months, a WinterKleen cover protects your pool from leaves, dirt and debris but allows water through into the pool. Using a WinterKleen in summer is also a great idea to make it easier to maintain your pool if you have a high debris problem.

The finished cover is installed over the entire pool area and overlapping it by 200mm with tie-down toggles, about

800mm apart, anchored a further 200mm from the cover edge. A minimum of 400mm from your pool's edge is needed to install a WinterKleen.

The tie-down toggles are easily pulled tight one by one until taut. WinterKleen covers do not stretch so leaves and dirt that fall on the cover can easily be blown or swept off while allowing rain to pass through. Inflatable pillows are available to hold the cover out of the water for high debris or large pool installations.

Available in Black, Blue, Green, Tan and Gray, WinterKleen covers are designed as a square, or with some extra measurements Daisy can shape the cover exactly to fit your pool. These covers come with an eight year pro-rata warranty and are easily removed when it's time to put on a Daisy Solar pool cover.

AUSTRALIA'S FAVOURITE.
