

BUILT TO LAST

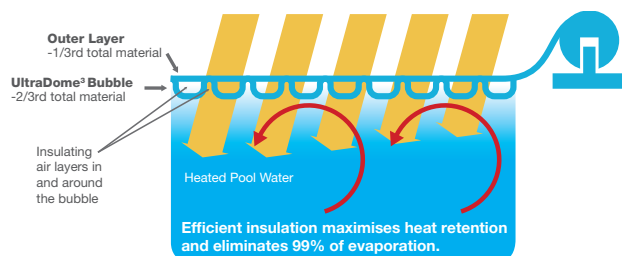

Years of research and development by Daisy under Australian conditions, has resulted in a technically innovative design that is exclusive to Daisy, made right here in Australia.

Only Daisy pool covers utilise the trademarked and award-winning UltraDome™ technology.

Our unique design and moulding technique enable the polyethylene (PE) bubble layer to be formed in a profile that is consistent in thickness. The results:

- The elimination of weak points for maximum durability and greater strength
- Super toughened to resist salt, sun and chemicals
- Maximum insulation and minimised heat and water loss
