

daisy  
pool covers & rollers

**More choice.  
More colours.**

*Same price*

**Find a Daisy pool roller to suit your budget, your pool  
– and now your style.**

At Daisy, we know your pool space is a reflection of you and how you love to use your pool. That's why we've been working with our product designers to develop a greater variety of functional and versatile pool rollers.

**What's hot?**

Daisy has followed the hottest Australian design trends and released a new Matte Black and Anodic Grey range in three of our most popular roller models. Matte Black is a bold and contemporary option, perfect for modern pool areas or customers looking to update their spaces. Anodic Grey has proven incredibly popular as an affordable alternative to stainless steel.

**Daisy offers three colour options for:**

- A75 Pool Roller
- ST Pool Roller
- MKII Pool Roller

**Or go next level with new and practical Under Bench Rollers!**

Our Under Bench Roller range now comes with matching coloured bearings and hand wheels, bringing you more choice and a polished finish to your poolside seating.

For those who have previously been restricted to a single colour, the new options provide an opportunity for updating and enhancing the look of their pool area.

Clear Anodised

Charcoal Shimmer

Light Oak

Western Red Cedar
