

## BUILT TO LAST

Years of research and development by Daisy under Australian conditions, has resulted in a technically innovative design that is exclusive to Daisy, made right here in Australia.

Only Daisy pool covers utilise the trademarked and award-winning ultradome™ technology.

Our unique design and moulding technique enables the polyethylene (PE) bubble layer to be formed in a profile that is consistent in thickness. The results:

- The elimination of weak points for maximum durability and greater strength
- Super toughened to resist salt, sun and chemicals
- Maximum insulation and minimised heat and water loss

**THIS MEANS YOU CAN ENJOY YOUR DAISY AND POOL LONGER!**

## RESEARCH, TECHNOLOGY AND SERVICE BACK OUR QUALITY

Integrity and service are what we stand for. Supported by industry leading research and development, all our products are specifically designed and tested for Australian conditions and made right here in Australia.

(3) pool size: length (B) X width (A)

(+ step area) = Total square metres.

Ask for a quote:

Take into account if your pool is indoors or outside. Do you need more heat or less or have leaf debris? Remember your roller adds years to the life of the cover. Does your pool have nonstandard features? These are some determining facts you need to discuss with us.

For shaped pools, treat as rectangular
