SAVE

on cleaning.
Keep dirt & leaves out

SAVE

on time.
Rolls off & on in 30 seconds.

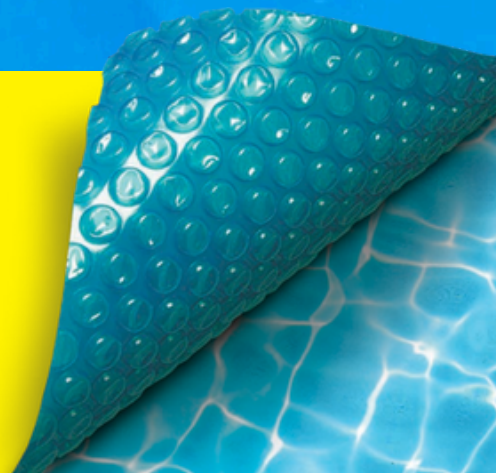

REDUCE

evaporation by 99%

Australian Made.

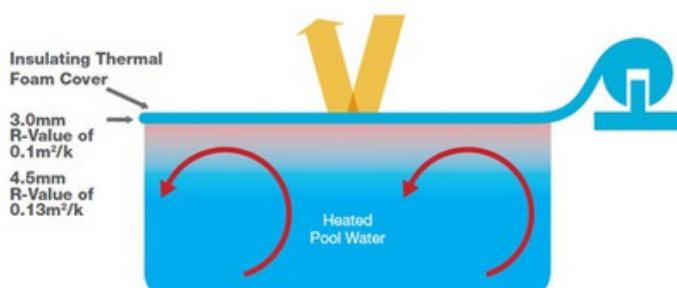

THERMOTECH FOAM INSULATION COVER

IDEAL FOR: Pools that don't see the sun

High insulating cover | Great for indoor pools | Save on heating costs | 8 Year pro rata warranty | 3.0mm or 4.5mm

The ThermoTech™ range is a high insulating cover ideal for both indoor and outdoor pools that primarily want to retain heat and reduce the energy costs of heating a pool with an external heat source, i.e. a heat pump, allowing you to save on energy costs and stop evaporation. These covers are great in cooler climates where heat loading is greater, and are generally used indoor and overnight.
