

Skip the Tape Measure.

The future of pool cover measurement has arrived.

Daisy Pool Covers is proud to launch CoverVision. A groundbreaking aerial-photo based pool measurement tool developed exclusively for Daisy authorised dealers.

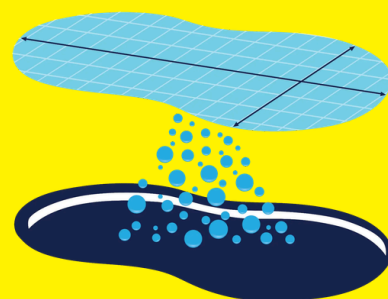

By harnessing high-resolution aerial imagery covering 99% of Australia, CoverVision allows dealers to measure pools with pinpoint accuracy.

Faster quoting, streamlined installations and more time spent selling.

No more complex onsite triangulation.

No more hours lost travelling between quotes.

No more specialist measuring bottlenecks.

CoverVision

Compatible with

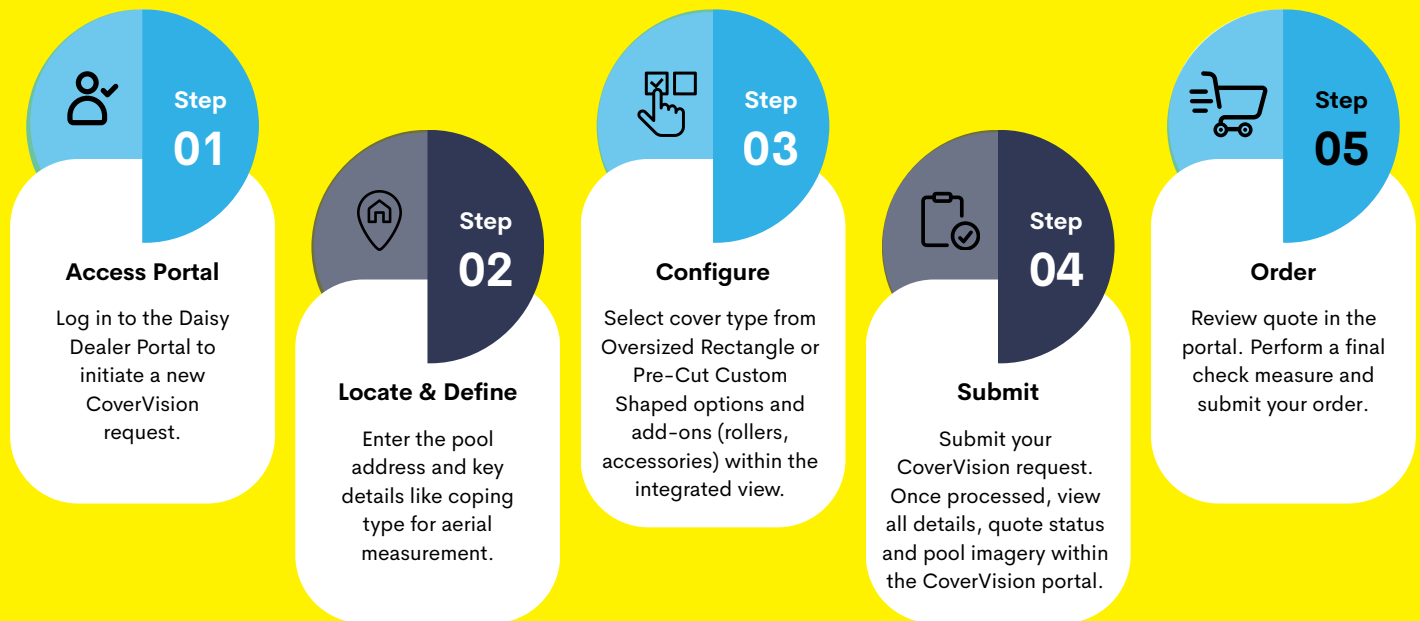

- Solar Covers
- ThermoTech™
- WinterKleen

Supports

- Oversized Rectangle Covers
- Pre-Cut Custom Shapes

pool covers & rollers

How CoverVision Works.

Built for Dealers. Designed to Remove Friction.

CoverVision eliminates two of the biggest challenges facing pool cover retailers: time-consuming site visits and specialist measuring & installing requirements.

This is a Gamechanger. Get Ready.
Make sure you have a Dealer Portal login for first access.

Check with the team today or email hello@daisypoolcovers.com.au

- Faster turnaround times
- Reduced labour costs
