Dear Daisy Customers,

We hope you enjoy the 2024/25 Expert's Year Book!

We've detailed our Australian-made product range and have included a comprehensive price list for the upcoming year.

We are incredibly grateful for all of our wonderful customers and your continued support over the years. We strive where possible to keep our costs down to ensure you receive the best prices for our products. That said, there have been some factors such as inflation, cost of utilities, labour and transport that have caused some costs to increase through our manufacturing and logistics supply chain.

Price increases have only been applied to products directly affected by a rise in costs.

This Year Book comes into effect on October 1st. We'd like to thank you for your cooperation and understanding and look forward to continuing our supply of Australia's leading pool covers and rollers.

Exciting Acquisition

At Daisy, we are committed to extending our product range while continuing to develop and enhance the quality of our pool covers, rollers and accessories. We recently shared the news of our acquisition of The Acoustic Box, soundproof enclosures that are easily assembled around your pool pump and filter.

The Acoustic Box range is your answer to a quiet poolside environment, reducing the noise of your pool equipment by up to 80%. Available in over 300 sizes and a range of colour options, the soundproof enclosures are designed for optimal internal space with a lift-top lid and removable panel that makes hard-to-reach areas accessible. Neatening your pool area, The Acoustic Box keeps your pump and filter hidden from view, prolonging its lifespan by shielding equipment from the harsh Australian climate. The acquisition marks an exciting milestone in our growth as we continue to deliver and install trusted, Australian-made products that are designed to stand the test of time.

Our product range meets the diverse needs of homeowners, builders, and commercial clients. From state-of-the-art pool covers and rollers to cutting-edge pump & filter soundproofing solutions, customers can expect unparalleled quality, performance, and durability across our entire product line.

If you would like more information on The Acoustic Box, or our pool covers and rollers, get in touch with our friendly team on 1300 55 18 11.

Placing an order?

Placing and managing your order has never been easier. Our Dealer Portal offers trade customers easy access to our product range, where prices, delivery and order details can be accessed in just a few clicks.

Going beyond order management, our Dealer Portal contains a suite of up-to-date videos, designed to educate you on our entire product range and position you as the pool area experts to your customers. Learn detailed product information, correct installation methods as well as top tricks to enhance your sales.

To set up a login on our Dealer Portal, contact Daisy HQ at hello@daisypoolcovers.com.au to set up an account.

On behalf of the whole team at Daisy, we'd like to express our gratitude for your continued support and are dedicated to providing you with our knowledge and expertise to help you achieve your business goals.

Kind regards,

Derek Prince

Devel Prince

SOLAR POOL COVER RANGE

IDEAL FOR: Outdoor pools

Heat your water with the sun | Insulate and save heat loss | Stop evaporation

The most popular and easy to use is the Solar Pool Cover. These are bubble-style covers that let the sun heat your pool water by up to 8°C and retain heat by insulating your pool overnight.

The natural heating and insulating saves you energy while also stopping evaporation.

These covers are perfect to use on all pools, especially when the sun hits the cover, helping you gain maximum benefits.

Pool size price grid see page 24/25.

525TG Solar pool cover Titanium Green 10 Year pro rata warranty 525 micron \$23.05m² inc. GST

evaporation. evaporation . by 99%.

SAVE on cleaning. Helps keep out dirt and leaves.

costs and

heat loss.

Warms your pool by up to 8°C for free.

THERMOTECH FOAM INSULATION COVER

IDEAL FOR: Pools that don't see the sun

High insulating cover | Great for indoor pools | Save on heating costs | 8 Year pro rata warranty | 3.0mm or 4.5mm

reduce the energy costs of heating a pool with an external heat source, i.e. a heat pump, allowing you to save on energy costs and stop evaporation.

Available in 3.0mm or the premium 4.5mm, these covers are great in cooler climates where heat loading is greater, and are generally used indoor and overnight.

Pool size price grid see page 26.

BENEFITS OF A THERMOTECH

WINTERKLEEN LEAF COVER

IDEAL FOR: Pools with high debris

Mesh cover saves cleaning time | Great for windy or leafy areas | 8 Year pro rata warranty

WinterKleen pool covers are the ideal choice for pools that experience excess garden and leaf debris. These pool covers are installed over your pool so that any debris that falls onto the cover collects, blows off or is easily swept away. Water passes through but debris and dust stay out. WinterKleen covers work well in conjunction with a Solar Pool Cover to use during the off-season. Reducing evaporation and saving cleaning time, these covers are ideal for pools that have a high debris load. Pool size price grid see page 27.

DAISY POWER

- Daisy power electric rollers
 Retro kits available
- ✓ Battery powered AC charge
- + solar models

ELECTRIC ROLLERS

The standard Daisy Power roller comes as a 12V battery operated electric roller with AC charger, two remotes and control buttons on the cast aluminium housing mounted on the end frame.

Daisy Power has a disengage mechanism, which allows for freewheeling rollout and rollup of the cover, and is a feature unique to Daisy.

Daisy Power can be retrofitted onto most existing 100mm Daisy Rollers.

Warranty period on electrical components (remote/control housing/tube motor/AC charger) is 2 years (this warranty does not cover battery failure). All mechanical parts 10 year pro rata warranty.

Suitable for pools up to 15m.

UBR: UNDER BENCH ROLLER

Front row seating that's stylish and energised!

A pool roller with a difference! The Under Bench Roller (UBR) combines practicality with style by giving you extra poolside seating while keeping the pool roller from view.

All models can be fitted with a solar powered battery option.

- Full aluminium frame and seating with stainless steel hardware
- Seating planks: 2 x 250mm wide planks
- Seating end caps: powder coated cast aluminium
- Power option 12V with solar panel, AC charger, two remotes, tube disengage and mounted control button

BGB: BELOW GROUND POOL COVER BOX

A very popular product, the Below Ground Pool Cover Boxes are suitable for backyards that have limited space. These are a full aluminium constructed box with anodized aluminum lids. Heavy duty braces are fitted to reinforce the structural integrity of the box. Our boxes will save you money not only in protecting your pool cover, giving it longevity but also by enhancing your pool area, adding value to your home. With Daisy Below Ground Boxes, the power is now in your hands with the latest time-saving accessory - BGB Drill Drive #1425. Find out more below.

- Quality boxes are fitted flush to the paving or concrete height hidden to
 enhance the aesthetic look of your pool area
- Slimline lid opening
- Manual roller with sealed 3:1 gearbox and 1.4m handle included

Manual option pricing

BGB Drill Drive Code: #1425 (drill not included) \$494.70^

Daisy's super convenient invention allows you to wind up your BGB with a standard power drill. Simply use the extension arm and turn on your drill. Your Daisy Pool Cover will quickly and easily wind into the BGB.

This auto-roller option means no more manual winding. Even better, you can do it all without the hassle of connecting power to your BGB. That's the power of Daisy innovation.

DMR: DECK MOUNT ROLLER

These boxes will not only save you money by protecting your pool cover and giving it longevity, but they also enhance the look of your pool area, adding value to your home. Our units are full aluminium with anodised aluminium lids. Heavy duty braces are fitted to reinforce the structural integrity of the unit.

- Quality units are fitted flush to the decking or paving height hidden to enhance the aesthetic look of your pool area
- Slimline lid opening
- Single person operation
- Versatile: can be installed to suit most new and existing pool, deck or bricked up cavities
- Note: pool cover must be installed to waterline maximum width, see FAQ
- 5 year structural warranty for your peace of mind

Over 300 Sizes Available

All Enclosures come in Free Standing or two types of 'BACKLESS' configurations to mount to the wall. Free Standing enclosure includes a rear panel with wooden insert to mount equipment, providing a fully enclosed structure. Backless enclosures utilise two wall strips to connect the enclosure to the wall, with a horizontal bridge attached to the top of the wall strips to ensure the system is fully enclosed. These wall strips are to be attached to the wall. 'Backless' or ' Deep Backless' models add 50mm or 150mm to the depth at no additional cost.

COMMERCIAL COVERS AND ROLLERS

Daisy is Australia's largest supplier of pool covers and rollers to the commercial industry. We have been in the pool cover industry for over 40 years.

Our commercial products have the strength and durability to withstand the harsh climate and conditions that an Australian public swimming pool is exposed to.

Our service, expertise and product design and quality produce cost reductions that are multiplied with commercial purchases.

If your operation is considering the cost saving benefits of a Daisy pool cover and roller system, **contact us by phone or email commercial@daisypoolcovers.com.au**

See the Commercial section on daisypoolcovers.com.au

DAISY COMMERCIAL COVERS

Our Commercial Pool Cover range includes our two market-leading products:

- 1. The **525 Solar Cover** using our patented UltraDome[™] Technology delivering best-in-class thermal efficiency, unparalleled performance and longevity in the life of the pool cover; and
- 2. The **ThermoTech™ Thermal Foam Cover**, a 4.5mm thick, cross linked PE closed cell Polyethylene foam pool cover.

Daisy pool covers and roller systems save on a large scale:

- 1. Saves pool warmth and reduces heating costs by 30-40%
- 2. Saves on cleaning costs
- 3. Saves on the cost of chemicals and retains chlorine
- Reduces evaporation by 99.98%
 In practical terms this means you stop water loss when the pool cover is on the water.

Mean Daily Evaporation Rate (in mm) for the October to March 6 month daily average from The Bureau of Meteorology

Sydney	Melbourne	Brisbane	Adelaide	Perth
6.4mm	6.4mm	6.9mm	7.4mm	8.3mm

Example: 50m x 20m outdoor pool in Brisbane loses 207,000 litres of water in a 30 day period in summer due to evaporation

- 5. Reduces building maintenance, corrosion and condensation in indoor heated pools
- 6. Extends the swimming season
- 7. A Daisy will pay for itself in 12 months

Insulating cover that does not heat the water. Ideal to assist keeping leaves and dirt out, stop evaporation and condensation without increasing water temperature.

4.5mm cross linked PE closed cell Polyethylene Foam. 3 layers, flame bonded both sides to UV stabilised, water proof, non toxic and chemical resistant blue woven PE.

All thermal foam covers are tape welded both sides. Step areas can be added by welding small rectangles on sides of the cover.

Cover width (finished size)

RRP Including GST. Please Note: Price Matrix is approx cover size. Allow for cover min 200mm larger all sides (200mm each end + each side = cover 400mm larger than pool).

1 Rectangle – – – – – – Measure finished cover siz	– – – Indicates Rectangular Cover re length and width.
	ates Curvilinear Measuring:

1 Chalk mark two points ● A and ● B at the longest point 200mm from the edge of the pool. (Record total width and length)

2 Chalk mark and number a series of ● points 200mm out from pool edge, ● 1, ● 2, ● 3 etc. starting clockwise from
● A all around to ● B about 900mm apart. Closer on tighter curves further apart for straighter edges.

3 Measure the distances from ● A to marked ● all points and record the distance to every chalk marked. eg
● A to ● 1 = 957mm or 95.7 cm

4 Measure the distances from ● B to marked ● points and record the distance to every chalk marked. eg

● B to ● 1 = 8500mm or 850cm

5 Draw a sketch of the pool outline (like the one on left) indicating approximate location of points A and B and the points between.

6 Fax or email to us your measurements in the table below.

The same method and measurements will be used to make the cover.

NOTE: This measuring procedure applies only to curvilinear pools. If you measure counter clockwise from 'A' the cover will be manufactured upside down.

Draw a sketch of the plan. Include a photo image if possible.

Restocking Policy – Cover

If you require a return of a domestic cover or if a cover size that is ordered and supplied correctly turns out to be the incorrect size for the pool, a few scenarios are available.

1

If the cover is too narrow (on the width of the pool), then when the cover is delivered back to either of the Daisy's factories in WA or NSW, Daisy will be able to weld onto the width of the cover to make it wider. Daisy will only charge for the material used to weld onto the existing cover. Please note minimum fee of \$50.00 plus GST applies for repair work. NOTE - if the cover has been cut to shape it is likely that by welding on a section it will distort and shrink the edge of the cover rendering it too small. Daisy accepts no responsibility for attempted repairs after the cover has been cut in to pool shape. After approximately one month the cover can lose it's "weld ability" therefore we may attempt to assist, however take no responsibility of failed repair attempts.

2

If the cover is too short (on the length of the pool) we can not cross weld satisfactorily across the cover and a new cover will be required.

3

If the cover is DRY, meaning it has not been rolled onto the pool (NOT meaning a cover rolled onto the pool then removed and dried out), then when the cover is delivered back to either of the Daisy factories in WA or NSW, Daisy will credit the cover MINUS 20% of the non taxed original invoice amount.

4

If the cover has been on a pool and is

wet and has not been cut to shape, and has been dried as much as possible, then when the cover is delivered back to either of the Daisy factories in WA or NSW, Daisy will credit the cover MINUS 40% of the non taxed original invoice amount.

5

If the cover has been on a pool and has been cut to shape, or over three months have passed from the original invoice date, Daisy is unable to accept the cover back for any form of credit.

6

Any replacement cover will be invoiced for dispatch and normal freight policy applies, credits will be issued upon receipt and inspection of the cover at the Daisy factories in WA or NSW. Any redelivery of covers repaired and/or altered will incur a freight charge.

Restocking Policy – Precut Cover

As pre cut covers are custom made to order Daisy Pool Covers cannot accept returns for credit.

Restocking Policy – Roller

If a domestic roller requires return for credit and it is a stock size, (not a specially manufactured size – specially manufactured rollers and rollers that have been purchased more than three months before the return date will not be accepted for a credit), still in its original unopened packaging, then when the roller is delivered back to either of the Daisy factories in WA or NSW undamaged, Daisy will credit the amount of the original invoice.

NOTE – All parts of the roller are required and must be unused, undamaged, unassembled and in the original packaging to be eligible for a credit. Credits will be issued upon receipt and inspection of the roller at the Daisy factories in WA or NSW.

Cover Warranty

All Daisy Pool Covers are covered by our exclusive pro rata month by month warranty to the original consumer. This means that Daisy Pool Covers will credit for the months that the original consumer does not achieve from their cover (up to the warranty period). i.e.

3 years (36 months) for 250B, 5 years (60 months) for 400B, 8 years (96 months) or 10 years (120 months) for 525. It also means that the consumer must pay for the period of time that they have used the product when ordering a replacement cover.

Example: A consumer achieves 3 years, 9 months (45 months) from a 400B cover. Take today's retail price (say \$436.00), divide the price by warranty period in months then multiply by the months the consumer used the cover (IE \$436.00 (retail Price) \div 60 months (Warranty period) = \$7.27 (per month price), then multiply \$7.27 (per month price) by 45 (months consumer used product) = \$327.15 charged to client.

Warranty Claims

To make warranty claims contact Daisy with photos and proof of purchase.

All warranty claims where the original consumer has achieved over 66% (2/3rds) of the life of the cover (warranty period) the warranty claim can be handled by the reseller. Daisy Pool Covers will cover the warranty by reducing the purchase price to the reseller, (using the same formula as above) to ensure resellers receive normal margin while handling the warranty claim. Daisy Pool Covers will guide the warranty procedure and authorise warranty claims via phone after the reseller's inspection of the cover. If any reseller is uneasy handling a warranty claim, Daisy Pool Covers will take over and handle the claim direct with the consumer.

Any warranty claim where the consumer has not achieved 66% (2/3rds) of the life of the cover (warranty period) Daisy Pool Covers must handle direct with the client. In all cases it is the responsibility of the consumer to produce a proof of purchase showing date purchased and series of cover. Please Note – Warranty claims are only redeemable as a discount on the purchase of a replacement cover. No cash payments will be made.

Freight Warranty

Our policy is to get the product to you in the most cost effective manner possible. We do not apply margin or profit to freight charges. We reserve the right to pass on any excess costs involved in getting the product to you. It is advisable to ensure that you understand the total cost of the product and add the relevant tax and freight components prior to quoting a price to your client. Our staff are always willing to give you these total costs at any time on any job.

Metro Delivery Time for standard domestic covers and rollers is approximately 2-3

working days, country areas add 1-2 extra working days.

Unless otherwise stated, all prices are free into store in Perth, Sydney, Melbourne, Brisbane, Canberra & Adelaide Metropolitan areas.

All other deliveries will incur a lower cost per item when you arrange multiple order deliveries to a single delivery point. Postcode range available.

All freight prices quoted are Inc. GST.

Parts Freight*

Medium item (FRME)	\$23.78
Large item (FRLG)	\$34.20

Long length surcharge

Long length surcharge of \$124.10 inc GST applies to all fixed length rollers supplied over 6.5m. Surcharge applied regardless of delivery location, surcharge is additional to any other delivery charges.

Minimum Cover Size

Single order cover size for Solar Covers is 5.76m² (ie: 2.4 x 2.4m) and for ThermoTech Foam 4.8m2 (ie: 2.0 x 2.4m). Any single cover orders smaller than these sizes will be charged at these amounts.

Minimum Order

Minimum order: A minimum invoice value of \$75.00 before tax is required to avoid a freight charge. Any total invoice amount under \$75.00 before GST will be subjected to an additional freight charge as follows:

Single Parts from \$23.78* Inc. GST Any other goods 1 item charge

Net Pricing*

Products such as freight, installation, precut or dig templates that are marked with ^{*} indicate net pricing where no discount is applied.

Level 2 Discount Structure[^]

Some products from Daisy are priced at a non standard speciality discount structure. Where you see ^ by a recommended retail price, trade discount varies from normal discount structure. Contact Daisy for more information.

The Acoustic Box Discount Structure ~

TAB products are priced with specific trade pricing not a standard discount percentage, see Dealer Portal or ask for Trade Price List

NOTES:

Unless specifically and clearly requested, all pool covers are made panel Width (panels wide for narrowest measurement) by Length (panels long for longest measurement).

If any specific manufacture requests are made a diagram is required.

Pool covers are made to fit measurements supplied NOT for specific orientations of panels.

REDUCE THE COST OF MAINTAINING A WARM SUSTAINABLE POOL.

Here's how you save:

SAVE more of the sun's warmth. Warms your pool by up to 8°C for free. SAVE on water, up to 10,000L per month. Improves water retention. SAVE on heat loss. Reduced heating costs and heat loss. SAVE on cleaning. Helps keep out dirt and leaves. SAVE on chemicals. Reduce salt and chemical use by up to 50%. SAVE on time. Rolls off and on in 30 seconds. SAVE on evaporation. Reduces evaporation by 97%. **SAVE** money Higher quality. Better design. Lasts longer.

Daisy Saves warmth and evaporation

Daisy Saves on cleaning

Daisy Saves on chemical loss

REDUCE THE COST OF MAINTAINING A WARM SUSTAINABLE POOL.

THE DAISY DIFFERENCE

The bubble is the same thickness throughout for greater strength and longer life

WinterKleen covers are ideal when the pool is not in use for extended periods and save your UltraDome Daisy cover from unnecessary exposure. WinterKleen stretches tightly over your pool so that leaves and debris blow off.

We stand by our product

We honour all warranty claims promptly. If you have a problem with any Daisy product call us and we'll fix it.

MAXI Semi Commercial Fully Mobile for larger pools UTC Roller Range - 5 year pro rata warranty **BUDDY** Cost effective for small pools UTC 75/100 Cost effective 75 or 100mm for small to large pools UTCAG Cost effective 50 or 75mm for above ground pools

Simply decide on the essential details: (1) type of cover (2) roller system (3) pool size: length (B) X width (A) (+ step area) = Total square metres.

Ask for a quote let's say – 52m² 525B with an ST roller. Take into account if your pool is indoors or outside. Do you need more heat or less or have leaf debris. Remember your roller adds years to the life of the cover. Does your pool have nonstandard features? These are some determining facts you need to discuss with us.
